EDUCATION:

Federal Science and Technical College, Lagos, Nigeria
University of Maryland Eastern Shore, Princess Anne, MD
Bachelor of Science in Computer Science, May 2027
GPA: 4.00/4.00

RELATED COURSEWORK:

Introduction to Computer Science Programming, Calculus I, Trigonometry, Principles of Composition I, Introduction to Psychology, Principle of Chemistry I, Principles of Chemistry Laboratory

TECHNICAL COMPETENCIES:

Proficiency in high-level programming languages: JavaScript, HTML5, Exceptional at Numerical Analysis, C++, Microsoft Office, Outlook, Google software.

COMPUTER SCIENCE PROJECTS

College - Spring 2023:

- Wrote a C++ program that calculated the average grade from the grade of eight students stored in an external text file and translated that average to a letter grade. The program also found what grades were honored grades.
- Wrote a C++ program which guides users through steps to fixing a bad internet connection and stores the conversation that follows once the program is run.
- Wrote a C++ program which finds and prints the largest and smallest numbers of any three integer numbers gotten from the user. Functions were implemented in this program.

Others:

- Created a responsive form filling html webpage using JavaScript as the backend language.
- Created a website to host information about various aspects of a mobile game.

PROFESSIONAL SUMMARY:

- Strong background in computer science principles, practices, and applications.
- Attention to details, Team work, Flexible, Quick learner
- Project Management skills
- Ability to operate in a diverse setting
- Good work ethics, Adaptable, Patient
- Excellent Customer Service skills
- Problem solving skills
- Excellent communications skills
